

The ever-popular Mordecai Guttman Levy--apple of Rabbi Meir Kahane's eye and flowering bud of modern American hit 'n run Irgun Zionism. A real jet-setter is he. From Los Angeles to Long Island and right back again--no problem for the itinerant firebug who specializes in just about anything from baseball-batting those with whom he disagrees, to pipe bombs, Molotov cocktails, telephone death-threats, ransacking homes, violent demonstrations and frequent court appearances. (Perhaps Mr. Irwin Suall of the ADL's "Fact-Finding" division will tell us where Mord gets his air-fare.)

Pictured here is the veteran dung-slinging terrorist being hauled out of the courtroom where he put in a special guest appearance to shriek obscenities at several Klansmen. Having finally had enough the judge bellowed "OUT OF ORDER," whereupon the bailiff took matters in hand. But little did the judge know how very much "out of order" Levy--whose family has a known history of institutional insanity--really is.

Materializing like some nightmarish cross between a mad buzzard and a bar-tailed godwit in heat, Levy pops out, sneaks up, or simply screws himself into the scene, mouth in overdrive, and proceeds to the business at hand. A more pathetically ridiculous creature the "Holocaust" Mafia would be hard-pressed to dredge up if this bird wasn't so downright destructive (3 firebombings at the IHR in 4 years).

Utterly absorbed by his own crude solutions to the Jewish problem which he manages to exacerbate at every opportunity, wherever the Demands of Democracy call him, there is sure to be no lack of answers to the questions of "Jewish Defense." It's simply a matter of having "the right stuff."
